## Santa's Aim For A Dream Topping

*Burnley Express 5<sup>th</sup> September 2000*

A group of footballers who began playing together as kids in Brierfield are celebrating after three years of amazing success. All-conquering Santa's who used to be called force five entered the Thompson centre five aside Football League in 1997 and they have not looked back since.

Receiving a wild card into the second division, the team raced away with the league titles and their success was repeated the season after when they were promoted to the Premiership after finishing as first division champions.

It was last season, however, when they really came into their own. They dished out defeats to fancied sides such as Miners and Lewis Design to win the Premiership and Burnley Express Cup double at the first attempt.
